

Keywords

1. Mark the keywords, under which you want to be listed
2. Send it together with your companies address by email to info@bartens.com and we will send you an offer

A

Abrasion resistance
Acetaldehyde plants
Acetic acid fermentation plants
Acetone plants
Activated carbon plants (granular)
– Activated carbon (granulated)
Actuators
Adsorbents
Air pollution control
– Flue gas desulfurization plants
– Scrubbers for flue gas
Antifoams
Assembling works
Autoclaves

B

Bag emptying machines
Bagasse depithing installations
Bagasse utilization plants
Beet cleaning machines (field)
Beet cleaning machines, mobile
Beet diffusers
– Cossette scalders
Beet harvesting machines
Beet leaf processing plants
– Beet leaf washers
– Choppers for beet leaves
Beet pulp processing installations
– Fine pulp presses
– Fine pulp separators
– Pulp press water treatment
– Pulp presses
Beet reception systems
Beet samplers
– Beet brei saws
Beet soil treatment
– Beet soil composting
– Beet soil dewatering
Beet sowing machines
Beet sugar factories, design/erection

Beet tail processing plants
– Beet tail catchers
– Beet tail choppers
– Beet tail washers
Beet unloading, storage and reclaiming
– Beet bins
– Beet fluming equipment
– Dirt and trash separators
– Movable beet tipping and piling plants
– Reclaimers for beet
– Spray nozzles
– Stationary dry unloading plants
– Wet unloading plants
Beet washers
– Jet-type washers
– Water separators
Bend screens
Biodiesel installations
– Biodiesel purification plants
– Methanol recovery
– Transesterification reactors
Bioethanol plants
– Batch fermentation plants
– CO₂ recovery (fermentation)
– Continuous fermentation plants
– Dehydration plants
– Design and erection
– Distillation plants
– Yeast separation plants
Biogas plants
Bone char
Bone char plants
Books
Bulk material aggregates
– Line diverters for bulk material
– Rotary valves
– Valves for bulk service
Burners for gas and oil

C

CAD-CAP-CIM-PPS-systems
Candy sugar plants
Cane harvesters
Cane loaders
Cane reception systems
Cane samplers
Cane sugar factories, design/erection
Cane transport equipment
Cane unloading installations
– Tipping equipments for cane trucks
Cane washing equipment
– Cane washing equipment drives
Carbon reactivation – multiple hearth furnace
Centre infeed rotary screens
Centrifugal accessories
Centrifugal drives
Centrifugals for fructose
Centrifugals for glucose (dextrose)
Centrifugals for starch production
– Decanter
– Disc centrifugals (separators)
– Ploughing centrifugals
– Screening centrifugals
Centrifugals for sugar
– Continuous centrifugals
– Discontinuous centrifugals
– Mixers (Centrifugals)
Centrifugals screens
Centrifugals, steam sterilizable
Chemicals for beet growing
– Fungicides (beet)
– Herbicides (beet)
– Insecticides (beet)
Chemicals for operation
Chemicals for sugar cane growing
– Cane ripeners
– Fungicides (cane growing)
– Herbicides (cane growing)
Chimney constructions
Chromatography equipment
Citric acid plants
Clack valves
Clarifiers
– Flocculation aids
Cleaning aids
Coating
Cogeneration plants

Condensers for vapours
Consultancy services
Containers
– Bunkers
– Tanks
– Tanks for stirrers
Controllers
– Analog controllers
– Digital controllers
– Two and three position controllers
Conveyor plant accessories
– Belt conveyor pulleys
– Belt drums
– Belts
– Chain wheels
– Chains
– Elevator buckets
– Precision driving chains
– Worms
Conveyor plants
– Belt conveyors
– Bucket elevator
– Contract manufacturing
– Cranes and lifting equipment
– Elevators
– Lifting wheels
– Package conveyors
– Palettising machines
– Pneumatic conveyors
– Rake conveyors
– Tractors and trucks
– Trough chain conveyors
– Vibratory conveyors
– Worm conveyors
Cooling plants
– Cooling towers
– Molasses coolers
– Pulp cooling plants
– Sugar cooling plants
Corrosion inhibitors
Crystallization aids
Crystallizers for dextrose/glucose
Crystallizers for food ingredients
Crystallizers for fructose
Crystallizers for inorganic chemicals
Crystallizers for salts
Crystallizers for sugar
– Batch vacuum pans
– Continuous vacuum pans
– Cooling crystallizers
– Seed magma installations
Cube sugar plants
– Plants for press cubes

- D**
 Degerming mills
 Denaturing agents for Ethanol
 Descaling equipments
 Dewatering presses
 Dextrin plants
 Digestate drier
 Dosing units
 Dried pulp pelleting presses
 – Pellets silos
 Dried pulp storage
 Drives
 Dry milling installations (corn)
 Drying plants
 – Bagasse driers
 – Beet leaf driers
 – Corn Gluten Feed Driers
 – DDGS driers
 – Drying kilns
 – Food ingredients driers
 – Germ driers
 – Glucose (Dextrose) driers
 – Gluten driers
 – Mineral driers
 – Pulp driers
 – Slops drier
 – Starch driers/starch derivatives
 – Sugar driers
 Dust collection plants
 – Dry dust separators
 – Wet dust collectors
- E**
 Electrical equipment
 – Electric motors
 – Frequency changers
 – Switch gears
 Electronic controlling equipment
 Engineering
 Entrainment separators
 Enzymes
 Ethyl acetate plants
 Evaporators
 – Falling film evaporators
 – Plate evaporators
 Explosion protection plants
 Extraction plants for cane
 – Cane conveyor drives
 – Cane conveyors
 – Cane diffusers
 – Cane feeder tables
 – Cane mill accessories
 – Cane mill hydraulics
 – Cane mills
 – Cane preparation plants
 – Crushers
 – Knives
 – Mill couplings
- Mill drives
 – Mill gears
 – Mill roll bearings
 – Mill rolls
 – Shredders
 Extraction plants for chicoree
- F**
 Fans
 Fermenters
 Filter accessories
 – Filter candles
 – Filter cartridges
 – Filter elements
 – Filter frames
 – Filter hoses
 – Filter plates
 – Filter pockets
 Filter aids
 Filtering fabrics
 – Filter bags
 – Filter cloths
 – Filter stockings
 Filters
 – Bag filters
 – Belt filter presses
 – Candle filters
 – Cartridge filters
 – Cell-less drum filters
 – Cell-type drum filters
 – Chamber filter presses
 – Diaphragm filter presses
 – Disc filters
 – Filter thickeners
 – Filters for sterile air
 – Frame filter presses
 – Frame filters
 – Plate filters
 – Rotorfilters
 – Screen basket filters
 – Sterilizing filters
 Fire protection
 Firing equipment
 – Firing systems
 Fittings, mountings, valves
 – Stainless steel fittings
 Flotation equipment
 Fructose installations
- G**
 Gas washers
 Gears
 Generators
 Gluconic acid plants
 Glucose installations
- H**
 Heaters
 – Heat exchangers
 – Heat recovery installations
 – Preheaters
 Heat pumps
 HFCS plants
 Hydrocyclones
 Hydrogenation plants
- I**
 Indicators and recording instruments
 Industrial and heating power plants
 Information systems
 Inhibitors
 Inspection and testing
 Insulations, installers
 Ion exchange plants
 – Decalcification
 – Decolorization
 – Demineralization
 – Softening
 Ion exchange resins
 – Decolorizing resins
 Irrigation equipment
- J**
 Jet extractors
 Jet refiners
 Juice purification plants for beet
 Juice purification plants for sugarcane
- L**
 Laboratory equipment
 – Analysis automation
 – Analytical sieve shakers
 – Automatic dilution and dosage systems
 – Beet brei analyzers
 – Beet sampling washers
 – Colour type measuring instruments
 – Density meters
 – Fk meters
 – Gas chromatography apparatus
 – Grain size analysers
 – HPLC-apparatus and analyzers
 – Laboratory scales
 – NIR analyzers
 – Photometers
 – Polarimeters
 – Refractometers
 – Titrators
 – Viscometers
- Lactic acid plants
 Lactitol plants
 Leaf catchers
 Lime kilns
 – Carbon dioxide washers
 – Lime kiln bricklaying
 Lime milk preparation
 – Classifiers
 – Lime slaking plants
 Limestone preparation plants
 Liquid sugar plants
 Lubricating agents
- M**
 Magnets (Separators)
 Maintenance
 Maltitol plants
 Malto-dextrin and glucose plants
 Management consulting
 Mannitol plants
 Measuring amplifiers
 Measuring and process control systems
 – Beet conveyors, process control systems
 – Cane mills, process control systems
 – Centrifugals, process control systems
 – Diffusers, process control systems
 – Distillation plants, process control systems
 – Drying plants, process control systems
 – Electric power generating plants, process control systems
 – Evaporators, process control systems
 – Fermenters, process control systems
 – Juice purification plants, control systems
 – Liquid sugar plants, process control systems
 – Operational data recording
 – Pneumatic installations
 – Starch factories, process control systems
 – Starch saccharification plants, process control systems
 – Steam boilers, process control systems
 – Vacuum pans, process control systems
 – Waste water treatment, process control systems

Measuring devices

- Alkalinity meters
- Conductivity meters
- Density meters, online
- Dust monitors
- Flow meters
- Humidity meters, online
- Level meters
- Measuring devices for stack gases
- Measuring devices for sugar colour
- Measuring devices for weight
- Measuring electrodes
- Particle analysis
- pH-electrodes
- pH-meters
- Pneumatic regulating valves
- Pressure meters
- Process automation
- Process colorimeters
- Process polarimeters
- Process refractometers
- Process viscometers, rheometers
- Speedometers
- Temperature sensors
- Turbidity meters, online
- Turbidity meters
- Waste water measuring devices

Measuring transducers

Membrane filter installations

Membranes

Metal detectors

Mixers, industrial

- Stirrers

Molasses utilization plants

- Desugarizing plants
- Mixing plants for molasses and dried beet pulp

Molecular sieve dehydration installations

Molecular sieves

N

NIR process analyzers

Noise insulation

Nozzles

O

Oil expeller presses

P

- Packing machines
 - Bagging and filling machines
 - Collective packing machines
 - Packaging machines
 - Sealing machines
- Palettising installations
- Pervaporation plants
- Phosphatation plants
- Plant based proteins
- Plant construction
- Potato discharging equipment
- Potato fluming equipment
- Potato rasps
- Pressed pulp conservation
- Presses for corn germs
- Presses for corn gluten feed
- Process computers
- Process control systems
- Pumps and compressors
 - Centrifugal pumps
 - Diaphragm pumps
 - Dosing pumps
 - Eccentric screw pumps
 - External gear pumps
 - Jet pumps
 - Liquid ring pumps
 - Peristaltic pumps
 - Positive displacement pumps
 - Refrigeration compressor
 - Rotary abutment pumps
 - Rotary lobe pumps
 - Rotary piston compressors
 - Screw pumps
 - Special constructions
 - Vacuum pumps
 - Vapour compressors

R

- Rectification plants
- Refineries, design/erection
- Reinforced concrete constructions
- Repairs
- Reverse osmosis
- Rubber materials

S

- Sample Divider
- Scale inhibitors
- Screening machines

Screening materials

- Drilled plates
- Perforated sheets
- Screening fabrics
- Sieve gratings
- Slotted screens
- Screw heat exchanger
- Seals
 - Flat jointings
 - Mechanical seals
 - Stuffingbox packings
- Second-hand equipment
- Separation plants for fructose/dextrose
- Separators
- Sheet metal
- Sight glasses
- Slicers
 - Beet knife preparation equipment
 - Beet knives
 - Equipment for fully automatic knife-box exchange
 - Knife boxes
- Slop utilization plants
- Sorbitol plants
- Sorting machines
- Starch factories, design/erection
- Starch saccharification plants
 - Acid-catalyzed starch saccharification plants
 - Enzymatic saccharification plants
- Steam boilers
 - Bagasse furnaces
 - Boiler cleaning
 - Feed water conditioning
- Steam traps
- Steam turbines
- Steel constructions
- Sterilizers
- Stone catchers
 - Stone washers
- Sugar beet seed
- Sugar conditioning
- Sugar milling plants for icing sugar
- Sugar sifting plants
- Sugar storage
 - Conveyors for silos
 - Sugar silos
- Sugar transport
- Sulfitation plants
- Sulfur kilns

T

- Technical services
- Transformers
- Tube cleaning machines
- Tubes
 - Bends
 - Compensators
 - Pipe fittings
 - Pipeline installation
 - Stainless steel tubes
- Turbines
- Turnkey installations

U

- Ultrafiltration installations
- UV disinfection plants

V

- Vapor compressors
- Vibration sieves

W

- Waste water treatment plants
 - Aerobic water purification plants
 - Anaerobic water purification plants
 - Mechanical water treatment plants
 - Solids separators
- Water conditioning
- Weighing machines
 - Gross and net bagging and filling weighers
- Wet milling plants (corn)
- Wheat starch separators
- Wheel washing systems

X

- Xanthan plants
- Xylitol plants

Y

- Yeast factories, design/erection
- Yeast propagation
