

Keywords

1. Mark the keywords, under which you want to be listed
2. Send it together with your companies address by email to info@bartens.com and we will send you an offer

A

Abrasion resistance
Acetaldehyde plants
Acetic acid fermentation plants
Acetone plants
Activated carbon plants (granular)
– Activated carbon (granulated)
Actuators
Adsorbents
Air pollution control
Alkalinity meters
Antifoams
Autoclaves

B

Bag emptying machines
Bagasse depithing installations
Bagasse driers
Bagasse utilization plants
Beet cleaning machine (maus)
Beet cleaning machines, mobile
Beet diffusers
Beet harvesting machines
Beet leaf driers
Beet leaf processing plants
– Beet leaf washers
– Choppers for beet leaves
Beet pulp processing installations
Beet reception systems
Beet samplers
– Beet brei saws
Beet slicers
– Beet knife preparation equipment
– Beet knives
– Equipment for fully automatic knife-box exchange
– Knife boxes
Beet soil composting
Beet soil dewatering
Beet soil treatment
Beet sowing machines
Beet sugar factories, design/erection

Beet tail processing plants
– Beet tail catchers
– Beet tail choppers
– Beet tail washers
Beet unloading, storage and reclaiming
– Beet bins
– Beet fluming equipment
– Dirt and trash separators
– Movable beet tipping and piling plants
– Spray nozzles
– Wet unloading plants
Beet washers
– Jet-type washers
– Water separators
Bend screens
Biodiesel installations
Bioethanol plants
Bioethanol plants, design and erection
Biogas plants
Bone char
Bone char plants
Books
Bulk material aggregates
Bunkers
Burners for gas and oil

C

CAD-CAP-CIM-PPS-systems
Candy sugar plants
Cane harvesters
Cane loaders
Cane reception systems
Cane ripeners
Cane samplers
Cane sugar factories, design/erection
Cane transport equipment
Cane unloading installations
– Tipping equipments for cane trucks
Cane washing equipment
– Cane washing equipment drives
Carbon dioxide washers

Carbon reactivation – multiple hearth furnace
Centrifugal accessories
Centrifugal drives
Centrifugal screens
Centrifugals for fructose
Centrifugals for glucose (dextrose)
Centrifugals for starch production
– Disc centrifugals (separators)
– Ploughing centrifugals
Centrifugals for sugar
– Mixers (Centrifugals)
Centrifugals, continuous for sugar
Centrifugals, discontinuous, for sugar
Centrifugals, steam sterilizable
Chemicals for operation
Chimney constructions
Chromatography equipment
Citric acid plants
Clack valves
Clarifiers
Classifiers
Cleaning aids
CO2 Recovery (fermentation)
Coatings
Cogeneration plants
Condensers for vapours
Conductivity meters
Consultancy services
Containers
Controllers
– Analog controllers
– Digital controllers
– Two and three position controllers
Conveyor plant accessories
– Belt conveyor pulleys
– Belt drums
– Belts
– Chain wheels
– Chains
– Elevator buckets
– Precision driving chains
– Worms
Conveyor plants
– Belt conveyors
– Bucket elevator
– Contract manufacturing
– Cranes and lifting equipment
– Elevators
– Lifting wheels
– Package conveyors
– Palettising machines
– Pneumatic conveyors
– Rake conveyors
– Tractors and trucks
– Trough chain conveyors
– Vibratory conveyors
– Worm conveyors
Cooling towers
Corn Gluten Feed Driers
Corrosion inhibitors
Cossette scalders
Crystallization aids
Crystallizers for dextrose/glucose
Crystallizers for food ingredients
Crystallizers for fructose
Crystallizers for inorganic chemicals
Crystallizers for salts
Crystallizers for sugar
– Batch vacuum pans
– Continuous vacuum pans (CVP)
– Cooling crystallizers
– Seed magma installations
Cube sugar plants

D

DDGS driers
Decalcification plants
Decanter centrifugals
Decolorization plants
Degerming mills
Dehydration plants (ethanol)
Deminerlization plants
Denaturing agents for Ethanol
Density meters
Density meters, online
Descaling equipments
Dewatering presses
Dextrin plants
Digestate driers
Disinfectants
Distillation plants
Dosing units
Dried pulp storage
Drilled plates
Drives
Dry milling installations (corn)
Drying kilns
Drying plants
Dust collection plants
– Dry dust separators
– Wet dust collectors
Dust monitors

- E**
 Electric motors
 Electrical equipment
 Electronic controlling equipment
 Engineering
 Entrainment separators
 Enzymes
 Ethyl acetate plants
 Evaporators
 – Falling film evaporators
 – Plate evaporators
 Explosion protection plants
 Extraction plants for cane
 – Cane conveyor drives
 – Cane conveyors
 – Cane diffusers
 – Cane feeder tables
 – Cane mill accessories
 – Cane mill hydraulics
 – Cane mills
 – Cane preparation plants
 – Crushers
 – Knives (cane preparation)
 – Mill couplings
 – Mill drives
 – Mill gears
 – Mill roll bearings
 – Mill rolls
 – Shredders
 Extraction plants for chicory
- F**
 Fans
 Fermentation plants, batch
 Fermentation plants, continuous
 Fermenters
 Filter accessories
 – Filter candles
 – Filter cartridges
 – Filter elements
 – Filter frames
 – Filter hoses
 – Filter plates
 – Filter pockets
 Filter aids
 Filtering fabrics
 – Filter bags
 – Filter cloths
 – Filter stockings
 Filters
 – Bag filters
 – Belt filter presses
 – Candle filters
 – Cartridge filters
 – Cell-less drum filters
 – Cell-type drum filters
 – Chamber filter presses
- Diaphragm filter presses
 – Disc filters
 – Filter thickeners
 – Filters for sterile air
 – Frame filter presses
 – Frame filters
 – Plate filters
 – Rotorfilters
 – Screen basket filters
 – Sterilizing filters
 Fine pulp presses
 Fine pulp separators
 Fire protection
 Firing equipment
 Firing systems
 Fittings
 Flocculation aids
 Flotation equipment
 Flow meters
 Flue gas desulfurization plants
 Food ingredients driers
 Frequency changers
 Fructose installations
 Fungicides (beet)
 Fungicides (cane growing)
- G**
 Gas washers
 Gears
 Generators
 Germ driers
 Gluconic acid plants
 Glucose (Dextrose) driers
 Glucose installations
 Gluten driers
- H**
 Heat exchangers
 – Heat exchangers
 – Plate heat exchangers
 – Preheaters
 – Shell and tube heat exchangers
 Heat pump
 Heat recovery installations
 Herbicides (beet)
 Herbicides (cane growing)
 HFCS plants
 Hydrocyclones
 Hydrogenation plants
- I**
 Indicators and recording instruments
 Industrial and heating power plants
 Industrial cleaning
 Information systems
 Inhibitors
- Insecticides (beet)
 Insulations, installers
 Ion exchange plants
 Ion exchange resins
 – Decolorizing resins
 Irrigation equipment
- J**
 Jet extractors
 Jet refiners
 Juice purification plants for beet
 Juice purification plants for sugarcane
- L**
 Laboratory equipment
 – Analysis automation
 – Analytical sieve shakers
 – Automatic dilution and dosage systems
 – Beet brei analyzers
 – Beet sampling washers
 – Colour type measuring instruments
 – Fk meters
 – Gas chromatography apparatus
 – Grain size analysers
 – HPLC-apparatus and analyzers
 – Laboratory scales
 – NIR analyzers
 – Photometers
 – Polarimeters
 – Refractometers
 – Titrators
 – Viscometers
 Lactic acid plants
 Lactitol plants
 Leaf catchers
 Level meters
 Lime kiln bricklaying
 Lime kilns
 Lime milk preparation
 Lime slaking plants
 Limestone preparation plants
 Liquid sugar plants
 Lubricating agents
- M**
 Magnets (Separators)
 Maintenance
 Maltitol plants
 Malto-dextrin and glucose plants
 Management consulting
 Mannitol plants
 Measuring amplifiers
- Measuring and process control systems
 – Beet conveyors, process control systems
 – Cane mills, process control systems
 – Centrifugals, process control systems
 – Diffusers, process control systems
 – Distillation plants, process control systems
 – Drying plants, process control systems
 – Electric power generating plants, process control systems
 – Evaporators, process control systems
 – Fermenters, process control systems
 – Juice purification plants, process control systems
 – Liquid sugar plants, process control systems
 – Operational data recording
 – Pneumatic installations
 – Starch factories, process control systems
 – Starch saccharification plants, process control systems
 – Steam boilers, process control systems
 – Vacuum pans, process control systems
 – Waste water treatment, process control systems
 Measuring devices
 Measuring electrodes
 Measuring transducers
 Membrane filter installations
 Membranes
 Metal detectors
 Methanol recovery plants (Bodiesel)
 Mixers, industrial
 Mixing plants for molasses and dried beet pulp
 Molasses coolers
 Molasses desugarizing plants
 Molasses utilization plants
 Molecular sieve dehydration installations
 Molecular sieves
- N**
 NIR process analyzers
 Noise insulation
 Nozzles

O

Oil expeller presses

P

Packing machines

- Bagging and filling machines
- Collective packing machines
- Packaging machines
- Sealing machines

Palettising installations

Palletizing machines

Particle analysis

Pelleting presses for dried pulp

Pellets silos (beet)

Perforated sheets

Pervaporation plants

pH-meters

Phosphatation plants

Pipeline installation

Plant based proteins

Plant construction

Potato discharging equipment

Potato fluming equipment

Potato rasps

Pressed pulp conservation

Presses for corn germs

Presses for corn gluten feed

Pressure meters

Process automation

Process colorimeters

Process computers

Process control systems

Process polarimeters

Process refractometers

Process viscometers, rheometers

Pulp cooling plants

Pulp driers

Pulp press water treatment (beet)

Pulp presses

Pumps and compressors

- Centrifugal pumps
- Diaphragm pumps
- Dosing pumps
- Eccentric screw pumps
- External gear pumps
- Jet pumps
- Liquid ring pumps
- Peristaltic pumps
- Positive displacement pumps

- Refrigeration compressor
- Rotary abutment pumps
- Rotary lobe pumps
- Rotary piston compressors
- Screw pumps
- Special constructions
- Vacuum pumps
- Vapour compressors

R

Rectification plants

Refineries, design/erection

Reinforced concrete constructions

Repairs

Reverse osmosis

Roller arcing

Rotary valves

Rubber materials

S

Sample Divider

Scale inhibitors

Screening centrifugals

Screening fabrics

Screening machines

Screening materials

Screw heat exchanger

Scrubbers for flue gas

Seals

– Flat jointings

– Mechanical seals

– Stuffingbox packings

Second-hand equipment

Separation plants for fructose/dextrose

Separators

Sheet metal

Sieve gratings

Sight glasses

Slop utilization plants

Slops drier

Slotted screens

Slurry mill for seed magma

Softening plants

Solids separators

Sorbitol plants

Speedometers

Spray pond nozzles

Stainless steel fittings

Stainless steel tubes

Starch driers/starch derivates

Starch factories, design/erection

Starch saccharification plants

– Acid-catalyzed starch saccharification plants

– Enzymatic saccharification plants

Steam boilers

– Bagasse furnaces

– Boiler cleaning

– Feed water conditioning

Steam traps

Steam turbines

Steel constructions

Sterilizers

Stirrers

Stone catchers

Stone washers

Sugar beet seed

Sugar colour, measuring devices

Sugar conditioning

Sugar cooling plants

Sugar driers

Sugar milling plants for icing sugar

Sugar sifting plants

Sugar storage

– Conveyors for silos

– Sugar silos

Sugar transport

Sulfitation plants

Sulfur kilns

Switch gears

T

Tanks

Technical services

Temperature sensors

Transesterification reactors (biodiesel)

Transformers

Tube cleaning machines

Tubes

Turbidity meters

Turnkey installations

U

Ultrafiltration installations

UV disinfection plants

V

Valves

Valves for bulk service

Vibration sieves

W

Waste water measuring devices

Waste water treatment plants

– Aerobic water purification plants

– Anaerobic water purification plants

– Mechanical water treatment plants

Water conditioning

Weighing machines

– Gross and net bagging and filling weighers

Wet milling plants (corn)

Wheat starch separators

X

Xanthan plants

Xylitol plants

Y

Yeast factories, design/erection

Yeast propagation

Yeast separation plants
